

ALMA BEAUTY REFORM is today's most effective, long term solution for the contouring and tightening of body and face

Its patented **UniPolar™** technology uses **dielectric heating** achieved with an RF frequency of 40.68 MHz, sending 40.68 million transmissions per second to the tissue. This type of **focused** and **powerful** heating enables deep and effective dermal heating without causing discomfort.

Used successfully in over 4,600 clinics worldwide, REFORM treatments are completely **safe, efficient** and suitable for **all skin types** (I-VI), as well as for thin and delicate areas.

# Features

Energy Source: UniPolar RF at 40.68 MHz, power up to 200 W

## Applicators

**Specifications:**  
Contactable surface diameter 14 mm, rotatable wheel diameter 30 mm

### UNIFACE & BODY

#### *Enhanced Lymphatic Drainage*

Combining UniPolar technology with a detachable rotating massage increases circulation and improves lymphatic drainage for superior results. Its ergonomic design and removable massage head make treatments easier to perform, while providing easy cleaning.

**Specifications:**  
Contactable surface diameter 30 mm

### COAXIPOLAR

#### *Focused on Face*

Suitable for facial treatments and using a coaxial electrode which transmits up to 6 mm deep. Its ergonomic, lightweight design and integrated thermometer enables easier use. It features an automatic temperature reading (C° or F°), making treatments faster and more efficient.

4 tips supplied with applicator

### MICROPEEL

#### *Micro Perforation for Skin Rejuvenation*

This very small applicator provides micro perforation of the skin, using unique Microplasma™ technology, and is effective for both face and body.

## System

Weight: 50 kg/ 110 lbs

Dimensions: 50 cm/ 19.5 in (W) x 48 cm/ 18.9 in (D) x 125 cm/ 49.2 in (H)

Power Supply: 120/ 230 VAC, 50/ 60 Hz, single phase

## Benefits

- Multi technology platform
- 10 years of clinically proven effectiveness
- Intuitive, user friendly 7" color touch screen with pre-set parameters
- Easy to operate, with a quick learning curve
- No consumables and no operating costs, yielding a high ROI
- Highly reliable system: maximum uptime, minimal maintenance
